

Coil Binding Solutions  
Manufactured By

# PLASTIKOIL®

Gateway Bookbinding Systems Ltd.  
The Plastic Spiral Experts

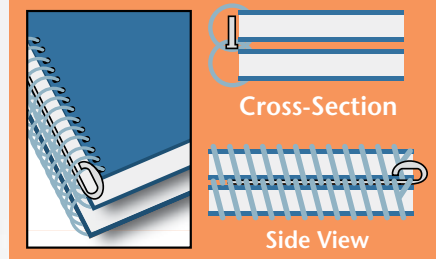

### Our Product Is PLASTIKOIL®

- the most attractive and functional mechanical binding system on the market. Made from the highest grade compounds, PLASTIKOIL® plastic spiral binding sets the industry's standards. Strong and durable – yet flexible and lightweight. Pages will never pull apart and the coil will not bend or distort during shipping. PLASTIKOIL® bound books lay flat when opened – with the ability to fold back a full 360 degrees. PLASTIKOIL® is available in 45 different colors – in coil diameters from 6 mm (1/4") to 50 mm (2"). Custom colors; custom lengths; all pitch options.

**The PLASTIKOIL® Color Chart** – an amazing display of all 45 PLASTIKOIL® colors. A handy reference guide / a great marketing tool.

### PLASTIKOIL® Binding Stick

### The PLASTIKOIL® Binding Stick

– a clear plastic stick that slips easily through two or more combined PLASTIKOIL® bound books – locking into place to visibly combine those two or more books into one bound volume. Lifting the limits on book thickness!

### The Koil Size Calculator

– A measuring device/slide chart to enable the user to determine the correct diameter of coil for a binding job.

**Packaging Options** – whether you want coil to be bulk packed or you prefer 100 lot boxes – Gateway can meet your needs.

**Custom Packaging Options** – coil resellers can have their coil custom labeled with their company name and contact information. We make it easy for you to look good!

## ENVIROKOIL®

A PLASTIKOIL® by-product produced from over 95% post-commercial waste.

## RECYKOIL

A reclaimed plastic produced from over 95% post-commercial waste.

## PETG-Koil

A plastic spiral binding manufactured with PETG compounds that are fully recyclable.

## PBS 400 Industrial Roller Inserter

The power of two spinning rollers for quick and efficient coil insertion

The PBS Industrial Roller Inserter offers dual roller insertion within a rugged steel frame. A durable design that is built to last.

Coil capabilities – 6 mm to 30 mm  
Productivity – Up to 300 books / hour

## PBS 2300 All-In-One

Combination roller inserter/single-sided crimper

The PBS 2300 – A combination roller inserter / single-sided crimper that is both easy to operate and quick to setup with consistent crimping.

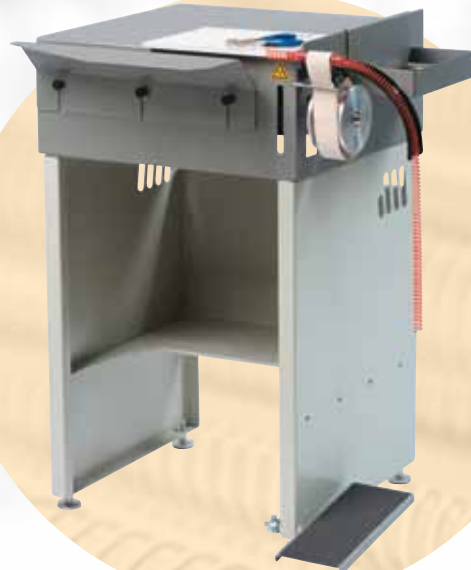

Coil capabilities – 6 mm to 30 mm  
Productivity – Up to 300 books / hour

## PBS 1500 Industrial Coil Inserter

The most economical, full range inserter on the market

The PBS 1500 Industrial Coil Inserter is designed for years of commercial binding use and reliability. Full range capabilities with components to handle the entire range of coil diameters. Works with longer 36" / meter lengths of coil meaning fewer reloads.

Coil capabilities – 6 mm to 50 mm  
Productivity – Up to 350 books / hour

## PBS 1650 TKB - Total Koil Binder

A full range table-top solution for plastic spiral binding

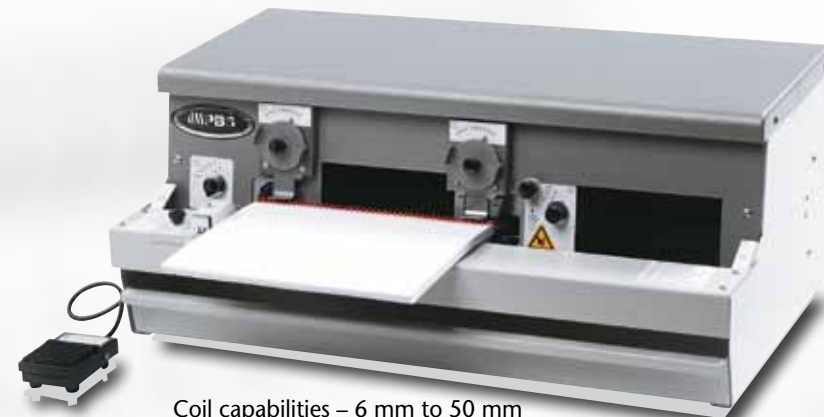

The Total Koil Binder – one machine with two modes of coil insertion that can handle the entire range of coil diameters. Simple roller insertion for thinner books with spine former placement to handle the thicker projects.

Patent Pending  
Type 1 – for .2475" / 3:1 Pitch  
Type 2 – for 4:1 / 3:1 / 2.5:1 Pitch

Coil capabilities – 6 mm to 50 mm  
Productivity – Up to 300 books / hour

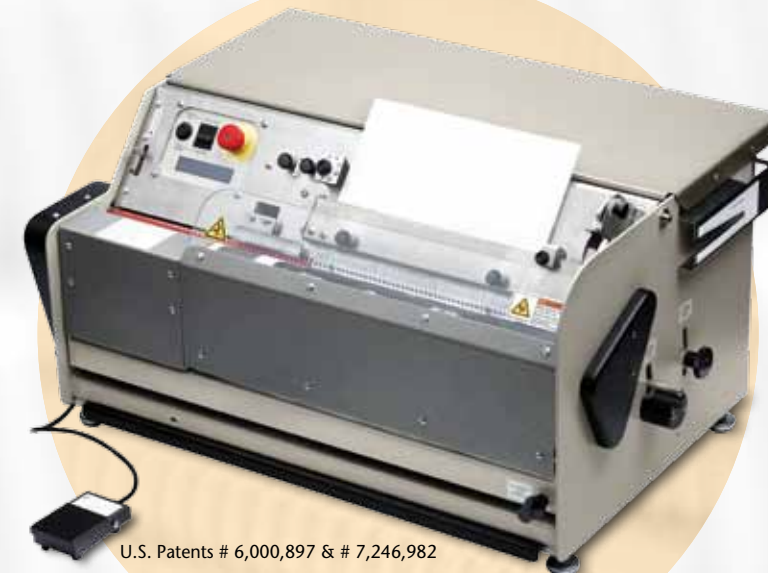

Coil capabilities – 6 mm to 50 mm  
Productivity – Up to 350 books / hour

U.S. Patents # 7,731,468 & # 7,828,503

## PBS 2600 TCB – Total Cut & Bend

Dual sided crimping unit

The TCB – Total Cut & Bend is the only machine on the market that cuts and crimps the full range of plastic spiral diameters from 6 mm up to 50 mm – with the same crimping heads. Easy 5 step adjustment to change from size to size. A nice feature – the larger the coil / the longer the crimp.

U.S. Patents # 6,000,897 & # 7,246,982

Coil capabilities – 8 mm to 20 mm  
Productivity – Up to 450 books / hour

## PBS 2800 Koilmatic

Table-top electric automatic coil inserter/crimper

Gateway's KOILMATIC – an affordable fully electric table-top automatic coil inserter designed with the digital 8.5" x 11" print market in mind. No tools – no air required. Only available in the .2475" pitch.

## PBS 3000QS4 Auto Inserter

Quick Setup Automatic Coil Inserter/Finishing System

The PBS 3000QS4 automatically inserts pre-cut lengths of coil into the pre-punched book and simultaneously crimps both ends – all in a single operation! No tools are required for basic setup and changeover. Geared for higher volume production. Designed for the trade with a wider range of book sizes / thicknesses.

Coil capabilities – Basic unit 8 mm to 20 mm  
Optional 6/7 mm Kit  
Optional Wider Pitch / Large Diameter Kit  
Productivity – Up to 600 books / hour

U.S. Patents # 6,000,897 & # 7,246,982

## Interline Capabilities

– The 3000QS4 can be interlined with the PLASTIKOIL® NCF6 Concept Former to expand your capabilities to include in-house coil manufacturing with Automated finishing.
